Product information

Series Lounge

Chaise lounge and corner elements.

Range of upholstered elements consisting of corner elements and chaise lounges, based on the use of cubic elements with low backrest. With functional gap between the seat surface and backrest for the insertion of variable-position armrests.
Design consisting of a stable, wood-based body with foam cushioning and cotton wool fleece lining.
Frame made from round steel brackets with two seat heights. Glides for hard floors, soft floors, or 2-component universal glides and .78" height adjustment.
Combination: Individual elements can be combined to form full seating landscapes.
The following material groups are available: Frame made of steel: M(chrome-plated, black RAL 9011); Fabric cover: S40,46,51,74,78,79,84.
