

Product information

DROP

Plastic table.

Plastic table, round or square, four-legged for flexible use indoors or outdoors, e.g. in break areas, great halls or the canteen. Table made from glass fibre-reinforced polypropylene with UV stabilizer. The material is tough, weather-resistant, water-repellent and easy to clean. The tabletop has flattened edges. The table legs with plastic glides are delivered disassembled and attached to the table top with screws.

The following material groups are available: Body made of plastic: C(white, dolphin grey).
