

Product information

Power supply units for tables.

Power supply units designed for integration into the user flap, for clipping onto the rear edge of the table, or for installation in the cable outlet. Depending on the configuration of the individual models, Schuko plugs, USB-C charging ports and HDMI ports are available. Optionally available with a power lead featuring a GST-18 plug (1.5 m cable length) or a Schuko plug (3 m or 4.5 m cable length).

Wireless charging stations. A wireless charging module that can be integrated flush with the surface into the cable outlet for wireless charging of smartphones.
