

Product information

LiteTable-ST

Stackable trapezoidal table.

Frame made from welded round steel legs with a rectangular steel top frame, all powder-coated. The table is stackable (see table).

Table in 8 fixed heights.

Tabletop made from a chipboard core and a continuous pressure laminated surface (CPL) with plastic edge or a phenolic top. All models available with square or round corners.

Equipment and options: Tables with glides for hard floors, soft floors, or 2-component universal glides, or with 2 casters at outer legs. Tables are equipped with stacking protection on the underside of the frame. Optionally it is possible to use table connectors depending on the table arrangement.

The following material groups are available: Frame made of steel: M1; Top made of CPL: L2,(white writable); Top made of phenolic: L4.
