

Product information

M-Bench

Side bench, free-standing or wall-mounted.

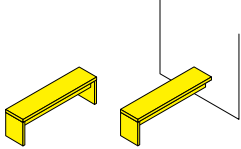

Constructed of two side panels, a seat plate, and a stable, centrally positioned double cross beam.

Seat plate and side panels made from laminated or veneer-coated chipboard.

Equipment and options: Side panels with plastic or felt glides.

Installation: Benches can be free-standing or wall-mounted. For use in corridors, auditoriums, or in rooms with high safety requirements – available with a floor attachment kit.

The following material groups are available to choose from: Body made of laminated chipboard: L4; Top veneered: F1.
