

## Material (Colors and decors)

### Plastic colour:

### C027 dark red ( ≈ NCS S 2570-R ).

**Plastic parts** are used for small parts and also for seat shells. Seat shells are made from polypropylene. Polypropylene is a particularly impact- and scratch-resistant material. The use of the individual colours is defined in the product information for the furniture.

**Important note.** Material and colour charts produced by printing can deviate slightly from the original and the colours are not necessarily exactly true. The same applies to ink-jet or laser prints from PDF files.
