

## Material (Colors and decors)

### Top surfaces: Linoleum

#### L054 ivory ( ≈ NCS S 1010 - Y10R ).

The following materials are used for the production of table tops and carcass furniture:

**Three-layer fine particleboard** E1 is coated on both sides with melamine resin or laminate decor and complies with DIN EN 312.

**Medium-density fibreboards** (MDF) are particularly suitable for cut-outs and profiled edges. The boards are melamine resin decor-coated on both sides.

**Warning:** Print and monitor representations of materials and colour samples may differ from the original and are not binding in terms of colour.
