

Material (Colors and decors)

Metal colour:

M033 light green (≈ NCS S 1060-G70Y).

Metal parts are mainly used in the production of chairs, tables and racks and are generally epoxy powder-coated.

Important note. Material and colour charts produced by printing can deviate slightly from the original and the colours are not necessarily exactly true. The same applies to ink-jet or laser prints from PDF files. Information on colour systems (e.g. NCS, RAL, Pantone) are always approximate values.
