

**Material (Colors and decors)****Metal color:****M063 anthracite.**

Metal parts are mainly used in the production of chairs, tables and racks and are generally epoxy powder-coated.

Important note. Material and color charts produced by printing can deviate slightly from the original and the colors are not necessarily exactly true. The same applies to ink-jet or laser prints from PDF files. Information on color systems (e.g. NCS, RAL, Pantone) are always approximate values.
