

Product information

NF-Swing

Forward-flexing cantilever chair.

Frame made from bent powder-coated or chrome-plated round steel tube. With an extremely stable strut between the skids. Optionally available with armrests with plastic cover.

Seat and backrest shell manufactured using a monosandwich process. Made from polypropylene with a hard core and fiberglass content. With a flexible outside and edge area to prevent uncomfortable pressure points when sitting. Optionally with a tightly upholstered seat and backrest area.

Equipment and options: Glides for hard floors, soft floors, or 2-component universal glides, or with interchangeable glides with replaceable glide elements. Optionally available with table edge protection for piggyback chair mounting.

The following material groups are available: Frame made of steel tube: M1,(chrome-plated); Seat and backrest: C7; Fabric cover: S46,51,64,74,78,79,82,84.

	Upholstery: Seat 0.8 in. Backrest 0.4 in.		Optionally with table-edge protection for piggy-back chair mounting.
