

Product information

Serie 501

Shelving unit (top element).

Construction made of glued carcasses that can be combined next to and above each other to form wall units.

Carcass made of melamine-coated chipboard with glued plastic edge.

Interior fittings with rows of holes for shelves.

Installation: An add-on element can be stacked on top of a wall-mounted base element. A cover plate is available as an optional extra. A 0.8 cm chipboard panel is positioned between all elements to create a shadow gap. Optionally available with black pull-out shelf.

The following material groups are available: Body and bases made of chipboard: L6; Cover top made of chipboard: L6; Cover top veneered: F1.
