

Product information

Series 600

Media rack-1.

Body consists of a tubular-steel skeleton with 4 tubular corners/legs, a solid metal bottom and 3 perforated-metal sides, all powder-coated. **Standard** with design or special castors or optional adjustable feet.

Front of satin glass (single pane safety) with metal knob.

Organization with cupboard element with adjustable shelves of laminated LIGNOpal chipboard with plastic edges. Optional with pull-out shelf and side doors for installation of CPU.

Media technique can be integrated into the cupboard. Rear corner tubes can be extended upwards to accept a plasma display unit.

Electrification is achieved through holes with aluminum inserts in the top as well as through an optional removable back.

Locks. Optionally with cylinder or turning knob locks.

The following material groups are available: Frame made of steel tube: M1,(chrome-plated); Front made of glass: G2; Body made of steel: M1.
