

Product information

S902-Pro-CQ

Seated and sit-stand workstations.

C-shape with square tubing.

Construction in accordance with DIN EN 527-1, consisting of an asymmetrically positioned steel tube crossbar and welded brackets.

Base consisting of two C-feet made of powder-coated metal with square columns and slim runners. With fixed seat height or with manual crank or electric motor height adjustment. Each with 2-stage telescopic columns, with collision protection and optionally with display, memory and child safety lock. With plastic or felt glides.

Tabletop made of melamine resin, veneer or laminate-coated chipboard, melamine resin or veneer-coated MDF board or HPL board with square or rounded corners. Optionally with sliding tabletop.

Electrification (optional) is provided by a fold-down sheet metal cable tray and a maximum of 3 metal outlets (left, centre, right) or a rectangular cable flap positioned on the left or right.

Accessories: CPU holder, thin client holder, wireless charging module, cable hose, cable chain and drawer.

The following material groups are available: Frame made of steel tube: M2; Top made of MDF or chipboard: L6; Top made of MDF or chipboard veneered: F1; Chipboard with laminate: L2; HPL-top: L4.
