

Product information

S902-Pro-TQ

Seating and sit-stand workstations with free-form tabletop.

T-shape with square tubing.

Construction in accordance with DIN EN 527-1 consisting of a symmetrically placed steel tube crossbar and welded brackets.

Base consisting of two T-feet made of powder-coated metal with square columns and slim runners. With fixed seat height or with electric motor height adjustment. Each with 2-stage telescopic columns, with collision protection and optionally with display, memory and child safety lock. With plastic or felt glides and optionally with lockable castors.

Tabletop made of melamine resin, veneer or laminate-coated chipboard, melamine resin or veneer-coated MDF board or HPL board with square or rounded corners. Optionally with sliding tabletop.

Electrification (optional) is provided by a fold-down sheet metal cable tray and a maximum of 3 metal outlets (left, centre, right) or a rectangular cable flap positioned on the left or right.

Accessories: CPU holder, thin client holder, wireless charging module, cable hose, cable chain and drawer.

The following material groups are available: Frame made of steel tube: M2; Top made of MDF or chipboard: L6; Top made of MDF or chipboard veneered: F1; Chipboard with laminate: L2; HPL-top: L4.
