Stackable four-legged tables (concave/convex).

Frame made from welded round steel legs with a central frame of rectangular steel, all powder-coated. The table is stackable (see table).

Table in 7 fixed heights or with Allen-key height adjustment, heights in accordance with DIN EN 1729.

Tabletop made from a chipboard core and a continuous pressure laminated surface (CPL) with plastic edge or a phenolic (HPL) top. All with round corners.

Function: It is possible to combine the two mirrored concave-convex shapes in many ways to create circles, rows, or freely shaped groups.

Equipment and options: Tables with 2 glides and 2 lockable casters or with 4 glides for hard floors, soft floors, or 2-component universal glides. Tables are equipped with stacking protection on the underside of the frame.

Please note: A maximum of 3 stacked (non-loaded) tables may be moved on the casters.

The following material groups are available: Frame made of steel: M1; Top made of CPL: L2,(white writable); Top made of phenolic (HPL): L4.

	Table heights (± 0.8 in) for students' desks ○ 0 = 15.75 in ● 2 = 20.9 in ● 3 = 23.25 in ● 4 = 25.2 in ● 5 = 28 in ● 6 = 29.95 in ● 7 = 32.3 in
