

Product information

Shift+ Landscape

Padded mats for floor-level learning.

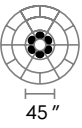

Padded mats consisting of a thick foam-padded body with anti-slip bottom, side carrying loop, and a black webbing around the edge. Available in rectangular form or as 60° wedge-shaped elements to match the Shift+ cabinets. The individual padded mat for the floor can also be used as a chair cover. The top seat surface consists of a hard-wearing colored covering.

Fire protection: The upholstered elements are in accordance with CAL TB 117-2013.

Transport trolley made of tubular steel for 30 upholstered mats 09445.

Drum table is made from conical ABS plastic with a phenolic top. The body is stackable. The top can be removed to access the storage space and is equipped with a groove to protect it from slipping.

The following material groups are available: Fabric cover: S40,64,82; Table body made of plastic: C(white, black grey RAL 7021); Top made of phenolic: L4.
