Shift+ Up

Table-bench stand

for presentations and floor-level learning.

Multipurpose unit which can be used as a stand, table, or bench. Stand-on landscapes of a maximum of two levels can be created from the rectangular and triangular elements. Designed with the same widths as the Shift+ cabinets and mats.

Frame made from round steel tube with all-round rectangular tube edge. The legs are equipped with conical stacking and glides and can be securely stacked on top of one another up to a height of two using a spring buffer. Elements located next to one another (max 20 sqm) must be linked together using a flexible rotary connector. Optionally with guide for plastic Grannells boxes.

Tops made from plywood. One side is non-slip and used for standing on, the other is used as a flat desk surface. The top can be turned without the need for any tools. The sides can be closed off with an insertable panel for use as a stand.

Transport cart for the tops and the elements inserted in one another.

The following material groups are available: Frame made of steel tube: M1; (plain black); Grannells plastic box: C3.
