

Product information

Solo

Four-legged stool.

Frame made from welded powder-coated round steel tube. The stool is stackable (see table).

Stool in 5 fixed heights, with 4 foot rings positioned at different levels to serve as footrests.

Seat made from plywood, wide seat pan without rivets so it won't catch on clothing.

Features and options: Plastic or felt glides.

The following material groups are available: Frame made of steel tube: M1; Seat made of wood: H1.
