

Product information

SpaceOrbiter-G

Mobile storage unit with a guide system for Gratnell boxes.

Frame made of bent and welded rectangular steel tubing, mounted on 4 lockable double-swivel castors (d=65mm) and featuring a top sheet metal shelf. Open on all sides. All steel parts are colour-powder-coated.

Modular system consisting of a single-row unit.

Rail system between the frames with plastic guides and pull-out stop. Gratnell boxes of various sizes, with or without lids, can be inserted into the module as required.

Can be positioned freely in the room or under EcoTable-Q or EcoTable-R tables, available in heights 6 or 7.

The following material groups are available: Frame made of metal: M1; Gratnells plastic box: C3.

* Max. load per box: 5 kg.			1
