

Product information

SpaceStation-G

Stationary, wall-mounted storage elements with rails for Gratnells boxes.

Frame made from bent and welded rectangular steel tube on 4 adjustable feet and a steel top. Optionally with a rear panel, two side panels, and a hinged door made of steel. Side panels have a cutout for easy gripping. All steel parts are powder-coated. Storage elements must be fixed to the wall and can be connected together in a series.

Modular system consisting of 1 or 2 columns.

Rail system of plastic guides sits between the frames and ensures a pull-out stop. The rails fit both heights of Gratnells boxes, with or without lids, interchangeably.

Locking system with cylinder lock in door.

The following material groups are available: Frame made of metal: M1; Gratnells plastic box: C3.

* Max. load per box: 11 lbs.
