

## Product information

### Tano

#### Stackable, asymmetrical polygonal tables.

**Frame** made from welded round steel legs with a rectangular steel top frame, all powder-coated. The table is stackable (see table).

**Table** in 8 fixed heights or with Allen-key height adjustment, heights in accordance with DIN EN 1729.

**Tabletop** made from a chipboard core and a continuous pressure laminated surface (CPL), a laminated LIGNOpal chipboard with plastic edge, or a phenolic (HPL) top. All with rounded corners. Model 01492 also available with polyurethane (PUR) safety edge.

**Function:** Tabletop shape ideal for a variety of combinations and setups for individual and group activities.

**Equipment and options:** Tables with 2 glides and 2 lockable casters; with 4 glides for hard floors, soft floors, or 2-component universal glides; or with adjustable glides. Tables are equipped with stacking protection on the underside of the frame.

Optionally available with built-in plastic Gragnells box integrated into the frame and a backpack hook.

**The following material groups are available:** Frame made of steel: M1; Top made of CPL: L2,(white writable); Top made of CPL (PUR edge): L2; Top made of LIGNOpal: L4; Top made of phenolic (HPL): L4.
