

Product information

TriTable-III

Triangular tables.

Frame made from welded round steel legs with a rectangular steel top frame, all powder-coated. The table is stackable (see table).

Table in 7 fixed heights or with Allen-key height adjustment, heights in accordance with DIN EN 1729.

Tabletop (right angle triangle with two equal sides) made from a chipboard core and a continuous pressure laminated surface (CPL) with plastic edge or a phenolic (HPL) top. All with round corners.

Function: Many combinations possible to form rows or group workspaces.

Equipment and options: Tables with glides for hard floors, soft floors, or 2-component universal glides; with a caster at the 90° corner; or with 3 casters. Tables are equipped with stacking protection on the underside of the frame. Optionally available with a built-in Grannells plastic box on the long side.

The following material groups are available: Frame made of steel: M1; Top made of CPL: L2,(white writable); Top made of phenolic (HPL): L4; Grannells plastic box: C3.
