

Product information

Vancouver

Armchairs, sofas and Vis-a-Vis elements with upholstered walls.

Upholstered furniture programme consisting of an armchair, sofa and Vis-a-Vis element - based on a clear, cubic form. Each with a 3-sided, upholstered wall for visual and acoustic screening. Optionally with electrification for mobile devices.

Construction consisting of a dimensionally stable body made of wood-based material with foam upholstery.

Frame made of flat steel runners or square tube feet.

Combination. Individual elements can be combined to form seating landscapes.

Fire protection in accordance with DIN 66084 corresponding to classes P-c (low) and P-b (medium) for material group Stamskin Top (S40) and optionally corresponding to class P-a (high) for material group Xtreme (S46) and Step (S78).

The following material groups are available: Fabric cover: S40,46,74,78.
